Interior Design App

<https://github.com/tptorres/Capstone-Project-2020>

Nicholas Samaroo's work:

‘/’ denotes looked into but not thoroughly

Work from last week:

[x] Did some more work on the ID and NID pages

[x] Looked into uploading profile images for users and its relation to Tylers

backend work

[x] Looked into React Natives styling/layout options more in depth

Added mid-week: N/A

For this week:

[] Map out the MVP more with Tyler

[] Make sure the MVP components are functional

[] Merge whatever work we both have done and help each other with any difficulties we have with our respective parts

Tyler's work:

Work from last week:

- ☒ Finished routes pertaining to user profiles
- ☒ Started putting together how the interaction system will function
- ☒ Researched more options for the interaction system, specifically chat APIs

Added mid-week: N/A

For this week:

- ☐ Finish last couple parts of authentication and flesh out the interaction system
- ☐ Try to get repos merged finally
- ☐ Start outlining plans for what the MVP should show
