Interior Design App

<https://github.com/tptorres/Capstone-Project-2020>

Nicholas Samaroo's work:

'/' denotes looked into but not thoroughly

Work from last week:

[x] Refresh on React Native / Express / Node.js

[x] Created and completed slides for project proposal presentation

[/] Saw how to store images into MongoDB; designers need to refer back to users images.

Added mid-week: N/A

For this week:

[] Further develop UI views

[] Continuing working with React Native to tweak initial UI design

[] Work with Tyler on scaffolding the backend and connecting with the front-end

Tyler's work:

Work from last week:

[x] Continued React Native course on Udemy

[x] Started building backend on a test repo to see how to setup user authentication  
on mobile

[x] Worked on slides and mock UIs for project proposal

Added mid-week: N/A

For this week:

- ☐ Start fleshing out more mock UIs for the different views that will be needed

- ☒ Continue scaffolding backend

- ☐ Start road mapping the necessary routes that will be needed for our API

- ☐ Continue working on authentication
