Interior Design App

https://github.com/tptorres/Capstone-Project-2020

Nicholas Samaroo's work:

'/' denotes looked into but not thoroughly

Work from last week:

[x] Finished Google Authentication via Firebase

[x] Encapsulated list of designers on the "Find a Designer" page in a scrollview

[x] Necessary styling for the reviews page

Added mid-week: N/A

For this week:

[] Do some final styling, necessary for user flow (i.e. modals, scrollviews, etc.)

[] Clean up navigation stack (i.e. tab navigator) and overall just clean up the UI

Tyler's work:

Work from last week:

[x] Successfully implemented the intermediate request page so the chat appears more request-like

[x] Implemented screen that allows a user to end an interaction and leave a review

[x] Fixed a bug where transitions between pages were glitchy and not going to the correct screen.

Added mid-week: N/A

For this week:

[] Clean up UI and try and implement tab navigator to have a smoother UX

[] Maybe try and change the GiftedChat source code to allow for more appealing

chat bubbles on the chat page
